T

E-D-SCHNELLSIEB® PAINT STRAINERS

E-D-SCHNELLSIEB® PAINT STRAINER super fine 125my (blue mesh)

- Water and solvent-resistant precision strainer with high-tech nylon mesh of exact mesh size
- Designed for straining varnishes, paints and primers as well as oils, stains and other liquids
- Clear identification of mesh size due to an innovative color coding system of the mesh
- Suitable for varnishing and painting, in paint mixing rooms and workshops, on the shop floor or in laboratories

Item#	Description	Packaging Unit
0110312 / 0210412	E-D-SCHNELLSIEB® PAINT STRAINER 125my nylon mesh, super fine	1 box = 4 x 125 = 500 pcs. 1 carton = 8 boxes = 4,000 pcs.

E-D-SCHNELLSIEB® PAINT STRAINER extra fine 150my (turquoise mesh)

- Water and solvent-resistant precision strainer with high-tech nylon mesh of exact mesh size
- Designed for straining varnishes, paints and primers as well as oils, stains and other liquids
- Clear identification of mesh size due to an innovative color coding system of the mesh
- Suitable for varnishing and painting, in paint mixing rooms and workshops, on the shop floor or in laboratories

Item#	Description	Packaging Unit
0110315 / 0210415	E-D-SCHNELLSIEB® PAINT STRAINER 150my nylon mesh, extra fine	1 box = 4 x 125 = 500 pcs. 1 carton = 8 boxes = 4,000 pcs.

E-D-SCHNELLSIEB® PAINT STRAINER fine 190my (yellow mesh)

- Water and solvent-resistant precision strainer with high-tech nylon mesh of exact mesh size
- Designed for straining varnishes, paints and primers as well as oils, stains and other liquids
- Clear identification of mesh size due to an innovative color coding system of the mesh
- Suitable for varnishing and painting, in paint mixing rooms and workshops, on the shop floor or in laboratories

Item#	Description	Packaging Unit
0110317 / 0210419	E-D-SCHNELLSIEB® PAINT STRAINER 190my nylon mesh, fine	1 box = 4 x 125 = 500 pcs. 1 carton = 8 boxes = 4,000 pcs.

E-D-SCHNELLSIEB® PAINT STRAINER medium 260my

(orange mesh)

- Water and solvent-resistant precision strainer with high-tech nylon mesh of exact mesh size
- Designed for straining varnishes, paints and primers as well as oils, stains and other liquids
- Clear identification of mesh size due to an innovative color coding system of the mesh
- Suitable for varnishing and painting, in paint mixing rooms and work shops, on the shop floor or in laboratories

Item#	Description	Packaging Unit
0110326 / 0210426	E-D-SCHNELLSIEB® PAINT STRAINER 260my nylon mesh, medium	1 box = 4 x 125 = 500 pcs. 1 carton = 8 boxes = 4,000 pcs.

E-D-SCHNELLSIEB® PAINT STRAINER coarse 1000my

(white mesh)

- Water and solvent-resistant precision strainer with high-tech nylon mesh of exact mesh size
- Designed for straining varnishes, paints and primers as well as oils, stains and other liquids
- Clear identification of mesh size due to an innovative color coding system of the mesh
- Suitable for varnishing and painting, in paint mixing rooms and work shops, on the shop floor or in laboratories

Item#	Description	Packaging Unit
0111000	E-D-SCHNELLSIEB® PAINT STRAINER 1000my nylon mesh, coarse	1 box = 4 x 125 = 500 pcs. 1 carton = 8 boxes = 4,000 pcs.

E-D-SCHNELLSIEB® PAINT STRAINER HOLDER

- Adjustable tripod made of solvent-resistant material
- Suitable for 0.5 to 10 liter containers with a max. Ø 30cm; regardless of its shape and material: if metal or plastic, if circular, angular or oval
- E-D-SCHNELLSIEBE® PAINT STRAINERS are hold above the container, or submerged in the liquid

Item#	Description	Packaging Unit
1360001	E-D-SCHNELLSIEB® PAINT STRAINER HOLDER	10 pcs. in 1 box 25 pcs. in 1 box 50 pcs. in 1 box

E-D-SCHNELLSIEB® PAINT STRAINERS

E-D-SCHNELLSIEB® PAINT STRAINER DISPENSER

- Safe and clean storage and dispenser system for all E-D-SCHNELLSIEB® PAINT STRAINERS directly at the workstation
- Minimizes risk of external contamination with e. g. dirt and dust
- Enhances process reliability and reduces costs
- Diminishes the possibility of quality loss in the work results and eliminates the risk of expensive rework

Item#	Description	Packaging Unit
1100001	E-D-SCHNELLSIEB® PAINT STRAINER DISPENSER	1 box = 1 piece 1 carton = 4 boxes = 4 pcs.

How to use the new E-D-SCHNELLSIEB® PAINT STRAINER DISPENSER

1

Place the **sealed plastic bag** containing the **E-D-SCHNELLSIEB® PAINT STRAINERS** in the dispenser with the **dispensing tab** of the strainers pointing forward.

2

Close the hinged door of the dispenser and tear the protection foil at the **perforation**. Then reach through the top and pull the foil **upward**.

3

Close the top lid and dispense **one strainer at a time** by **pulling it downwards using the dispensing tab**. The mesh size is easily identifiable thanks to the different **color codes**.

The entire system **prevents contamination**, enhances **process reliability** and allows for **perfect straining and cleaning of various liquids for excellent and flawless results**.

Clean and precise: The nylon mesh series

150my, extra fine, turquoise

190my, fine, yellow

260my, medium, orange

1000my, coarse, white

E-D-STRAINER BAG 400my

- Water and solvent-resistant precision strainer made of high-tech nylon mesh with exact mesh size and an elastic, stretchable opening
- Designed for straining large quantities of varnishes, paints and primers of all types as well as oils, stains and other liquids
- Suitable for containers holding up to 15 liters with a max. Ø 40cm
- Especially designed for varnishing and painting in the industrial and crafts sectors

Item#	Description	Packaging Unit
0100400	E-D-STRAINER BAG 400my nylon mesh, medium-coarse	1 box = 25 pcs. 1 carton = 4 boxes = 100 pcs.

E-D-GRAVITY-CUP-STRAINER 250my for gravity feed spray guns

- Precision strainer made of water and solvent-resistant materials, with nylon mesh of exact mesh size
- Designed for straining varnishes and paints of all types
- Fits gravity feed spray guns from various manufacturers

Item#	Description	Packaging Unit
0120250	E-D-GRAVITY-CUP-STRAINER 250my nylon mesh, medium	1 bag = 10 pcs. 1 carton = 10 bags = 100 pcs.

E-D-STRAINING-FUNNEL 160my

- Precision strainer made of water and solvent-resistant materials, with nylon mesh of exact mesh size
- Designed for straining varnishes, paints and primers of all types as well as oils, stains and other liquids; reusable after thorough cleaning
- Especially for varnishing and painting in the industrial and crafts sectors
- Upon request, also available in different mesh sizes

Item#	Description	Packaging Unit
0120160	E-D-STRAINING-FUNNEL 160my nylon mesh, extra fine	1 bag = 10 pcs. 1 carton = 10 bags = 100 pcs.

Paint Accessories
MIXING AND DECANTING

Mixing and Decanting

E-D-MIXING-CUP System

- High-quality disposable mixing cups, available in four sizes (400ml, 650ml, 1300ml, 2230ml)
- Facilitates precise mixing and storing of paints and varnishes of all types
- Clear and transparent design with explicit scale markings for mixing ratios 2:1, 3:1, 4:1, 5:1, 6:1, 7:1, 8:1, 9:1, 10:1
- Made of non-toxic polypropylene (PP) – antistatic, skin-tolerant, food-safe
- Flexible while also very robust material with a smooth, non-slip surface; stackable

Item#	Description	Packaging Unit
E-D-MIXING-CUPS		
1160400	400ml, scaling 325ml	1 box = 200 pcs. / 1 pallet = 72 boxes = 14,400 pcs.
1160650	650ml, scaling 550ml	1 box = 200 pcs. / 1 pallet = 40 boxes = 8,000 pcs.
1161300	1300ml, scaling 1100ml	1 box = 200 pcs. / 1 pallet = 24 boxes = 4,800 pcs.
1162230	2230ml, scaling 1950ml	1 box = 200 pcs. / 1 pallet = 24 boxes = 3,600 pcs.

E-D-PLASTIC-CUP System

- High-quality plastic cups, available in four sizes (400ml, 650ml, 1300ml, 2230ml)
- Facilitates mixing, decanting and storing of liquids of all types
- Fully transparent and without any scale markings
- Made of non-toxic polypropylene (PP) – antistatic, skin-tolerant, food-safe
- Flexible while also very robust material with a smooth, non-slip surface; stackable

Item#	Description	Packaging Unit
E-D-PLASTIC-CUPS		
1160400S	400ml, no scale markings	1 box = 200 pcs. / 1 pallet = 72 boxes = 14,400 pcs.
1160650S	650ml, no scale markings	1 box = 200 pcs. / 1 pallet = 40 boxes = 8,000 pcs.
1161300S	1300ml, no scale markings	1 box = 200 pcs. / 1 pallet = 24 boxes = 4,800 pcs.
1162230S	2230ml, no scale markings	1 box = 200 pcs. / 1 pallet = 24 boxes = 3,600 pcs.

LIDS for E-D-MIXING-CUP and E-D-PLASTIC-CUP Systems

- Lids in four sizes (fitting 400ml, 650ml, 1300ml, 2230ml cups) for safe and air-tight sealing of E-D-MIXING-CUPS and E-D-PLASTIC-CUPS
- Facilitating long-term storage of paints and varnishes of all types as well as of other liquid and solid products
- Made of non-toxic polypropylene (PP) – antistatic, skin-tolerant, food-safe

Item#	Description	Packaging Unit
LIDS for E-D-MIXING-CUP and E-D-PLASTIC-CUP Systems		
1160401	400ml, unprinted	1 bag = 50 pcs. / 1 box = 10 bags = 500 pcs.
1160651	650ml, unprinted	1 bag = 50 pcs. / 1 box = 10 bags = 500 pcs.
1161301	1300ml, unprinted	1 bag = 50 pcs. / 1 box = 8 bags = 400 pcs.
1162231	2230ml, unprinted	1 bag = 50 pcs. / 1 box = 8 bags = 400 pcs.

E-D-MIXING-PADDLES

- Stirrers made of solvent-resistant plastic with low mixing-resistance for an even distribution of sinking particles and fast mixing
- For fast, clean and thorough stirring and mixing of paints and varnishes of all types as well as primers, oil emulsions, stains and other liquids
- Made of non-toxic polypropylene (PP) – fiber-free, antistatic, skin-tolerant, food-safe
- Clean storage in dispenser box and easy to remove from dispenser flap

Item#	Description	Packaging Unit
09350303	E-D-MIXING-PADDLE small length 20cm, black	1 dispenser box = 500 pcs. 1 carton = 4 dispenser boxes = 2,000 pcs.
09480303	E-D-MIXING-PADDLE large length 30cm, black	1 dispenser box = 125 pcs. 1 carton = 4 dispenser boxes = 500 pcs.

E-D-TOUCH-UP-BOTTLES

- Clear and transparent touch-up bottles made of solvent resistant plastic and with a small brush, available in one size (20ml)
- Designed for applying and storing paints of all types
- Including wipe cap, label, filling funnel and small ball to shake up content
- Set up ready-for-use with brush and ball, 100 bottles arranged in a reclosable case-box
- For use in the industrial and crafts sectors as well as for DIY work

Item#	Description	Packaging Unit
0999978	E-D-TOUCH-UP-BOTTLES 20ml, ready-for-use	1 box = 100 pcs. 1 carton = 8 boxes = 800 pcs.

Mixing and Decanting

E-D-PAINT-CANS

- High-quality cans made of tinfoil with a standard Ø 99mm, available in three standard sizes (500ml, 750ml, 1000ml)
- Depending on the internal coating, designed for mixing, decanting and storing of liquids of all kinds as well as solid products
- Available without internal coating for products containing solvents or protected with internal coating (base, body, ring) for products containing water
- Suitable for paint mixing machines
- Lids separately available in a standard size for safe and air-tight sealing

Item#	Description	Packaging Unit
E-D-PAINT-CANS		
uncoated, no lid		
1180500	500ml, Ø 99mm, height 80mm	1 bag = 144 pcs. / 1 pallet = 12 bags = 1,728 pcs.
1180750	750ml, Ø 99mm, height 119mm	1 bag = 96 pcs. / 1 pallet = 12 bags = 1,152 pcs.
1181000	1000ml, Ø 99mm, height 155mm	1 bag = 72 pcs. / 1 pallet = 12 bags = 864 pcs.
E-D-PAINT-CANS		
with internal coating, no lid		
1180501	500ml, Ø 99mm, height 80mm	1 bag = 144 pcs. / 1 pallet = 12 bags = 1,728 pcs.
1180751	750ml, Ø 99mm, height 119mm	1 bag = 96 pcs. / 1 pallet = 12 bags = 1,152 pcs.
1181001	1000ml, Ø 99mm, height 155mm	1 bag = 72 pcs. / 1 pallet = 12 bags = 864 pcs.

LIDS for E-D-PAINT-CANS

- Lids made of tinfoil in a standard size for safe and air-tight sealing of E-D-PAINT-CANS of sizes 500ml, 750ml, 1000ml
- Depending on the internal coating, suitable for long-term storage of paints and varnishes of all types as well as other liquid and solid products
- Available without internal coating for products containing solvents or protected with internal coating for products containing water

Item#	Description	Packaging Unit
1180000	LIDS for E-D-PAINT-CANS uncoated, for cans with Ø 99mm	1 bag = 75 pcs. 1 box = 14 bags = 1,050 pcs.
1180001	LIDS for E-D-PAINT-CANS with internal coating, for cans with Ø 99mm	1 bag = 75 pcs. 1 box = 14 bags = 1,050 pcs.

E-D-POUR-SPOUT

- Attachment made of transparent, solvent-resistant plastic for E-D-PAINT-CANS of sizes 500ml, 750ml, 1000ml
- Designed for non-drip pouring and decanting of varnishes, paints and primers of all types as well as oils, stains and other liquids
- Made of non-toxic polypropylene (PP) – antistatic, skin-tolerant, food-safe
- Suitable for varnishing and painting, in paint mixing rooms and workshops, on the shop floor or in laboratories

Item#	Description	Packaging Unit
1151000	E-D-POUR-SPOUT for E-D-PAINT-CANS sizes 500ml, 750ml, 1000ml	1 bag = 20 pcs. 1 carton = 40 bags = 800 pcs.

E-D-PAINT-BUCKET

- High-quality plastic bucket (white) with bails available in two sizes (10.8 and 16.0 liters)
- Designed for mixing and decanting of liquids of all kinds
- Made of non-toxic polypropylene (PP) – antistatic, skin-tolerant, food-safe
- Very robust material with a smooth, non-slip surface; stackable

Item#	Description	Packaging Unit
1170108	E-D-PAINT-BUCKET 10.8 liters Ø 279mm top, Ø 252mm bottom, height 220mm	1 pallet = 450 pcs.
1170160	E-D-PAINT-BUCKET 16.0 liters Ø 306mm top, Ø 288mm bottom, height 255mm	1 pallet = 288 pcs.

Paint Accessories
WIPING AND CLEANING

Wiping and Cleaning

E-D-TACK-CLOTH Eversoft® #23

- High-quality, finely woven cloth made of synthetic material (white); pleasantly soft and mildly impregnated
- Specifically designed for use with the latest coating technologies; still suitable for all types of paints
- Low-tack; non-drying, antistatic, wax and silicone-free, skin-tolerant and non-toxic
- For long-lasting dust removal before varnishing and painting works as well as in industrial cleaning
- Single packed, easy and clean to remove from the convenient dispenser box

Item#	Description	Packaging Unit
0850402	E-D-TACK-CLOTH Eversoft® #23 single packed, 46cm x 46cm, folded 11cm x 13cm	1 dispenser box = 20 pcs. 1 box = 8 dispenser boxes = 160 pcs. 1 carton = 8 boxes = 1,280 pcs.

E-D-TACK-CLOTH Eversoft® #10

- High-quality, finely woven cloth made of 100% cotton (white); impregnated
- Specifically designed for use with conventional coating systems; still suitable for all types of paints
- Medium-tack; non-drying, antistatic, wax and silicone-free, skin-tolerant and non-toxic
- For long-lasting dust removal before varnishing and painting works as well as in industrial cleaning
- Single packed, easy and clean to remove from the convenient dispenser box

Item#	Description	Packaging Unit
0850202	E-D-TACK-CLOTH Eversoft® #10 single packed, 92cm x 46cm, folded 11cm x 13cm	1 dispenser box = 20 pcs. 1 box = 8 dispenser boxes = 160 pcs. 1 carton = 8 boxes = 1,280 pcs.

E-D-TACK-CLOTH Eversoft® #05

- Coarse mesh cloth made of 100% cotton (white); impregnated
- Specifically designed for use with conventional coating systems; still suitable for all types of paints
- Medium-tack; non-drying, antistatic, wax and silicone-free, skin-tolerant and non-toxic
- For long-lasting dust removal before varnishing and painting works as well as in industrial cleaning
- Single packed

Item#	Description	Packaging Unit
0850102	E-D-TACK-CLOTH Eversoft® #05 single packed, 81cm x 46cm, folded 11cm x 13cm	1 bag = 5 pcs. 1 box = 20 bags = 100 pcs. 1 carton = 10 boxes = 1,000 pcs.

HOW TO USE E-D-TACK-CLOTHS

Step 1:

Remove the E-D-TACK-CLOTH from its packaging.

Step 2:

Unfold it completely.

Step 3:

Form a soft, loose and smooth ball out of the unfolded E-D-TACK-CLOTH.

Step 4:

Hold the ball in your hands as shown in order to assure that hands and fingertips are fully covered.

Step 5:

Carefully slide the **E-D-TACK-CLOTH** over the surface **WITHOUT any pressure and without any rubbing**. All dust and dirt particles are fully removed from the surface and are sustainably kept in the tacky mesh.

The result:

A perfectly clean and smooth surface without any particles.

Wiping and Cleaning

E-D-TACK-CLOTH Eversoft® #05/50 - INDUSTRY

- Coarse mesh cloth made of 100% cotton (white); impregnated
- Specifically designed for use with conventional coating systems; still suitable for all types of paints
- Medium-tack; non-drying, antistatic, wax and silicone-free, skin-tolerant and non-toxic
- For long-lasting dust removal in industrial cleaning; still suitable before varnishing and painting works
- Bulk pack of 50 pcs.

Item#	Description	Packaging Unit
0850103	E-D-TACK-CLOTH Eversoft® #05/50 - INDUSTRY bulk pack, 81cm x 46cm, folded 24cm x 20cm	1 pack = 50 pcs. 1 carton = 25 packs = 1,250 pcs.

E-D-TACK-CLOTH Blend Prep

- Non-woven cloth made of synthetic material (blue); impregnated
- Specifically designed for use with water-based coating systems; still suitable for all types of paints
- Low-tack; non-drying, antistatic, wax and silicone-free, skin-tolerant and non-toxic
- For long-lasting dust removal before varnishing and painting works as well as in industrial cleaning
- Single packed, easy and clean to remove from the convenient dispenser box

Item#	Description	Packaging Unit
0850802	E-D-TACK-CLOTH Blend Prep single packed, 46cm x 23cm, folded 11cm x 13cm	1 dispenser box = 20 pcs. 1 box = 8 dispenser boxes = 160 pcs. 1 carton = 8 boxes = 1,280 pcs.

E-D-TACK-CLOTH Blend Prep - INDUSTRY

- Non-woven cloth made of synthetic material (blue); impregnated
- Specifically designed for use with water-based coating systems; still suitable for all types of paints
- Low-tack; non-drying, antistatic, wax and silicone-free, skin-tolerant and non-toxic
- For long-lasting dust removal in industrial cleaning; still suitable before varnishing and painting works
- Bulk pack of 72 pcs.

Item#	Description	Packaging Unit
0850805	E-D-TACK-CLOTH Blend Prep - INDUSTRY bulk pack, 46cm x 23cm, unfolded	1 pack = 72 pcs. 1 box = 2 packs = 144 pcs. 1 carton = 8 boxes = 1,152 pcs.

E-D-TACK-CLOTH Full Cover – Waved

- High-quality cloth made of a waved cotton-viscose composite (natural colored), multi-layered, one-sidedly sewn, soft and non-slip surface; impregnated
- Specifically designed for use with conventional coating systems; still suitable for all types of paints
- Medium-tack; non-drying, antistatic, wax and silicone-free, skin-tolerant and non-toxic
- For long-lasting dust removal before varnishing and painting works as well as in industrial cleaning
- Single packed

Item#	Description	Packaging Unit
0850106	E-D-TACK-CLOTH Full Cover – Waved single packed, 91 cm x 82cm, folded 10cm x 20cm	1 box = 100 pcs. 1 carton = 12 boxes = 1,200 pcs.

E-D-DUST-REMOVAL-GLOVE

- Disposable glove made of 100% recyclable polypropylene (white); electrostatic
- For dust removal on smooth surfaces (coated / uncoated) such as plastic, wood, glass, metal or leather
- To be used as is without additional cleaning products
- For use in the industrial and crafts sectors, for DIY work and household cleaning

Item#	Description	Packaging Unit
0840100	E-D-DUST-REMOVAL-GLOVE 21.5cm x 16cm	1 bag = 20 pcs. 1 box = 10 bags = 200 pcs. 1 carton = 8 boxes = 1,600 pcs.

E-D-MICROFIBER-CLOTH

- High-quality cloth (blue) made of soft microfiber, 80% polyester, 20% polyamide
- Open structure causes high level of absorption of liquids and dirt
- Suitable for all types of varnishes and especially for finishing and polishing work
- Machine washable, reusable
- For use in the industrial and crafts sectors, for DIY work and household cleaning

Item#	Description	Packaging Unit
0860200	E-D-MICROFIBER-CLOTH 40cm x 40cm, folded 20cm x 20cm	1 bag = 20 pcs. 1 carton = 10 bags = 200 pcs.

Paint Accessories

MASKING AND WRAPPING

Masking and Wrapping

E-D-SPECIAL-FOIL „FIDIAMID“, highly heat-resistant

- High-quality and heat-resistant (up to 230°C) special foils, covers, tubes and bags presenting an excellent level of chemical resistance. Available in various dimensions and material thicknesses.
- For a wide range of applications, e. g.
 - as coverage for workparts not to be coated or harmed during paint application and drying processes
 - disposing of particles and powders in a dustfree manner after (powder) coating processes
 - processing hot-filling of bitumen
 - protecting lutings, gluten and sealing mass against drying up and hardening in chemical and/or construction industry
- Heat-resistant up to 230°C
- Extremely durable and tear-resistant, available in various dimensions and material thicknesses
- Producible as flat sheet films, covers, tubes or bags (welded or clip-locked)
- Certified according to EN 13463-1:2002, appendix C for the use in connection with distillers
- For use in the industrial and crafts sectors as well as R&D areas

E-D-CLEAN-COVER

- High-quality, self-adhesive masking film in light grey, available in three sizes (100cm x 25m, 60cm x 25m, 60cm x 10m)
- Designed for covering and protecting workshop floors, work benches and scales
- Paint and solvent resistant, lint-free, very tear-resistant and durable
- Rear side: self-adhesive, ensures safe grip
- Top side: special anti-slip surface
- NOT for use in „ATEX-Zones“ 1, 2, 20, 21 and 22
- For use in the industrial and crafts sectors

Item#	Description	Packaging Unit
	E-D-CLEAN-COVER	
1622025	100cm x 25m	1 pallet = 30 rolls
1622625	60cm x 25m	1 pallet = 30 rolls
1622610	60cm x 10m	1 pallet = 30 rolls

E-D-MASKING-PAPER, self-adhesive

- High-quality, self-adhesive and dust-free masking paper with a smooth and dense lining on one side to prevent leakage of water or solvent-based paints; available in four sizes (7.5/15/22.5/30cm x 50m)
- Designed for covering and protecting floors, windows, door frames, vehicle parts as well as other workparts prior to paint application
- Grammage of approx. 50 g/m²; fully coated rear ensures safe grip, easy to remove and to refix, smooth and plain surface processed and durable
- NOT for use in „ATEX-Zones“ 1, 2, 20, 21 and 22
- For use in the industrial and crafts sectors as well as for DIY work

Item#	Description	Packaging Unit
	E-D-MASKING-PAPER, self-adhesive	
1420750B	7,5cm x 50m	1 box = 24 rolls
1421500B	15cm x 50m	1 box = 12 rolls
1422000B	22cm x 50m	1 box = 9 rolls
1423000B	30cm x 50m	1 box = 20 rolls

E-D-MASKING-PAPER

- High-quality, dust-free masking paper with a smooth and dense lining on one side to prevent leakage of water or solvent-based paints; available in five sizes (21/37.5/60/90/120cm x 300m)
- Designed for covering and protecting vehicle parts as well as workparts in machine building, engineering and wood processing prior to paint application
- Grammage of approx. 50 g/m²; excellent absorption characteristics, smooth and plain surface processed, durable and easy to cut
- For use in the industrial and crafts sectors, especially for spray painting

Item#	Description	Packaging Unit
	E-D-MASKING-PAPER	
1460210	21cm x 300m, 50 gr/m ²	1 pallet = 150 rolls
1460375	37.5cm x 300m, 50 gr/m ²	1 pallet = 90 rolls
1460600	60cm x 300m, 50 gr/m ²	1 pallet = 66 rolls
1460900	90cm x 300m, 50 gr/m ²	1 pallet = 33 rolls
1461200	120cm x 300m, 50 gr/m ²	1 pallet = 33 rolls

Masking and Wrapping

E-D-FLOOR-COVER

- Safe and non-slip cover for all floors, made from dust and lint-free material (non-woven); non-conductive
- Designed for protecting floors from contamination with liquids and dirt
- Fast distribution and absorption of liquids due to the characteristic honeycomb structure of the top layer
- Highly absorbent middle layer holds liquids with long-lasting effect
- Fully non-slip coated bottom layer ensures safe grip
- Liquid-tight, environmentally friendly, reusable
- For use in the industrial and crafts sectors as well as for DIY work

Item#	Description	Packaging Unit
1620112	E-D-FLOOR-COVER non-woven, on roll, 100cm x 12m	1 bag = 1 roll 1/2 pallet = 18 rolls 1 pallet = 36 rolls

E-D-TACK-MAT

- Efficient cover for all floors, made from heavy-duty synthetic material; non-conductive
- Prevents contamination with dirt, dust and micro-organisms prior to entering rooms and cleanroom areas with long-lasting effect
- Consisting of 30 individually removable and numbered synthetic tacky layers with a total thickness of 1.5 cm
- Tacky layers are totally plain and allow full-surface usability due to borderless edges
- For use in the industrial and crafts sectors as well as in research and public facilities

Item#	Description	Packaging Unit
1620200	E-D-TACK-MAT 115cm x 45cm x 1.5cm, white	1 mat = 30 layers 1 carton = 4 mats

E-D-SLIM-TAPE

- High-performance masking tape made of a very thin, flexible and water-resistant paper band with an even spread of adhesive; available in one standard size of 19mm x 50m
- Designed for precise masking, especially of sharp edges and curves with small radii on surfaces made of metal, plastic or rubber
- Elastic, flexible and easily removable; excellent cornering; hardly any paint edges when varnishing
- Temperature resistant up to approx. 100°C (212°F), UV-resistant for up to 60 days
- For use in the industrial and crafts sectors, especially for spray painting

Item#	Description	Packaging Unit
1401950	E-D-SLIM-TAPE 19mm x 50m, yellow	1 bag = 12 rolls 1 box = 4 bags = 48 rolls

E-D-FINELINE-TAPE

- High-performance masking tape made of a very thin, flexible and water-resistant PVC material with an even spread of adhesive; available in five regular and partly very small sizes (3/6/9/12/19mm x 55m)
- Designed for precise masking, especially of sharp edges and curves with small radii on surfaces made of metal, plastic or rubber
- Elastic, flexible and easily removable; excellent cornering; hardly any paint edges when varnishing
- Temperature resistant up to approx. 150°C (302°F) for approx. 1 hour, short-term UV-resistant
- For use in the industrial and crafts sectors, especially for spray painting

Item#	Description	Packaging Unit
1410355	E-D-FINELINE-TAPE 3mm x 55m, green	1 box = 165 rolls
1410655	6mm x 55m, green	1 box = 90 rolls
1410955	9mm x 55m, green	1 box = 60 rolls
1411255	12mm x 55m, green	1 box = 45 rolls
1411955	19mm x 55m, green	1 box = 30 rolls

E-D-DUCT-TAPE

- High-performance adhesive tape with linen texture made of a water-resistant polyethylene (PE)-cotton composite with an even spread of natural rubber adhesive; available in two sizes (38mm x 50m, 50mm x 50m)
- Designed for air-tight sealing of packaging, drill holes, gaps and joints as well as for fixing masking material on rugged surfaces such as brick or stone work and plastering; also suitable as abrasion protection
- Extremely durable and easy to remove; temperature resistant up to approx. 80°C (176°F) for approx. 3 hours
- For use in the industrial and crafts sectors as well as for DIY work

Item#	Description	Packaging Unit
1453850	E-D-DUCT-TAPE 38mm x 50m, silver-gray	1 bag = 1 roll 1 box = 24 bags = 24 rolls
1455050	E-D-DUCT-TAPE 50mm x 50m, silver-gray	1 bag = 1 roll 1 box = 18 bags = 18 rolls

Paint Accessories

**BOOTH PROTECTION
AND ACCESSORY TOOLS**

Booth Protection and Accessory Tools

Important Note:

Prior to using any type of liquid protective coatings, it is obligatory to run a test on a surface of $\pm 0.5\text{m}^2$ to 1m^2 , especially on varnished surfaces or surfaces made of plastic. This precaution will ensure that the product is suitable for the intended use within the given work environment. It also ensures that the surface remains undamaged and that the film is easy to remove.

Read and follow application instructions as well as material safety data sheets carefully before use.

Storage: Store in a cool and dry place. Avoid direct sunlight. Prevent freezing. Keep containers closed.

E-D-TACKY-COATING

- High-quality transparent and tacky protective film, water-based; designed for use on walls of spray booths and spraying stations; ready for immediate use
- Intended for the long-lasting bonding of dust and dirt as well as for the protection of surfaces from paint overspray and other particles
- Easy to apply and remove; highly efficient, no drying period necessary, thus instant protection
- Due to its water-based characteristics, not suitable for use on surfaces susceptible to rust

Item#	Description	Packaging Unit
1613005	E-D-TACKY-COATING water-based, transparent, 5 liters	1 canister = 5 liters 1 carton = 4 canisters 1/2 pallet = 15 cartons = 60 canisters
1613025	E-D-TACKY-COATING water-based, transparent, 25 liters	1 canister = 25 liters 1/2 pallet = 12 canisters 1 pallet = 24 canisters

E-D-STRIPPABLE-COATING "W"

- High-quality white strippable coating, solvent-based and with thixotrope characteristics that reduce runs and drips; ready for immediate use
- Designed for use on smooth and clean surfaces made of metal as well as spray booth walls made of stainless, galvanized or zinc plated steel or aluminum
- Especially suitable for surfaces susceptible to rust but NOT suitable for use on plastic, on painted or other solvent sensitive surfaces
- Intended for the protection of surfaces from paint overspray and other particles
- Easy to apply and remove; highly efficient, heat-resistant up to 80°C (176°F), reliable protection after a short drying period
- Caution: This product contains toluol and is highly flammable

Item#	Description	Packaging Unit
1613325	E-D-STRIPPABLE-COATING "W" solvent-based, white	1 drum = 25 liters 1/2 pallet = 11 drums 1 pallet = 22 drums

E-D-PEELABLE-COATING "T"

- High-quality transparent peelable coating, water-based and with thixotrope characteristics that reduce runs and drips; ready for immediate use
- Specifically designed for use on all smooth glass surfaces as well as on other similar smooth surfaces
- Especially suitable for surfaces that are not solvent-resistant
- Due to its water-based characteristics, NOT suitable for use on surfaces susceptible to rust
- Intended for the protection of surfaces from paint overspray and other particles
- Easy to apply and remove; highly efficient, reliable protection after a short drying period

Item#	Description	Packaging Unit
1613225	E-D-PEELABLE-COATING "T" water-based, transparent	1 canister = 25 liters 1/2 pallet = 12 canisters 1 pallet = 24 canisters

E-D-PEELABLE-COATING "W"

- High-quality white peelable coating, water-based and with thixotrope characteristics that reduce runs and drips; ready for immediate use
- Designed for use on almost all types of spray booth walls and especially suitable for surfaces that are not solvent-resistant
- Due to its water-based characteristics, NOT suitable for use on surfaces susceptible to rust
- Intended for the protection of surfaces from paint overspray and other particles
- Easy to apply and remove; highly efficient, reliable protection after a short drying period

Item#	Description	Packaging Unit
1613125	E-D-PEELABLE-COATING "W" water-based, white	1 canister = 25 liters 1/2 pallet = 12 canisters 1 pallet = 24 canisters

E-D-DUST-TRAP-COATING

- Transparent water-based liquid that once applied and dried creates a static film on the floor; ready for immediate use
- Regularly applied on even ground, dirt and dust particles will coagulate and cling to the film with long-lasting effect
- Suitable in all work environments where dust causes problems, such as in paint spray booths, at sanding workstations, in computer and server rooms etc.
- Along with the dried film, the gathered dust and dirt can easily be removed through sweeping
- Easy to apply and remove; highly efficient, no drying period necessary, thus instant protection

Item#	Description	Packaging Unit
1612005	E-D-DUST-TRAP-COATING water-based, transparent	1 canister = 5 liters 1 carton = 4 canisters 1/2 pallet = 15 cartons = 60 canisters

Booth Protection and Accessory Tools

E-D-OVEN-COATING

- High-quality water-based polymer emulsion to be applied inside drying ovens; ready for immediate use
- Designed for the long-lasting bonding of dust and dirt as well as for the protection of walls from other particles
- Due to its water-based properties, NOT suitable for use on surfaces susceptible to rust
- Easy to apply; highly efficient, heat-resistant up to 165°C (329°F), reliable protection after a short drying period

Item#	Description	Packaging Unit
1613425	E-D-OVEN-COATING water-based, transparent	1 canister = 25 liters 1/2 pallet = 12 canisters 1 pallet = 24 canisters

E-D-MULTI-PURPOSE-CLEANER

- High-performance alkaline cleaning liquid, undiluted; dilute with water before use
- Designed for fast and long-lasting removal of contaminants, such as oils, greases and alkaline-soluble protective waxes as well as dusts and traffic dirt
- Especially suitable for cleaning drying ovens coated with E-D-OVEN-COATING, spray booth walls and glass surfaces as well as engine housings, chassis, car bodies, underbodies etc.
- Caution: Corrosive product; wearing appropriate personal protective equipment is obligatory when using it

Item#	Description	Packaging Unit
1613525	E-D-MULTI-PURPOSE-CLEANER alkaline undiluted cleaning liquid, to be diluted with water	1 canister = 25 liters 1/2 pallet = 12 canisters 1 pallet = 24 canisters

SATA Approved:

All products presenting the **“SATA Approved” icon** were thoroughly tested by the SATA GmbH & Co. KG in terms of handling and application performance while using well established SATA spray tools. The products tested were classified as **“very good”** regarding the factors scrutinized.

All spray tests were conducted with the maximum pressure specified for each spray gun type respectively. All technical advises based on these tests are available upon request.

E-D-EASY-TAP for booth protection products

- Hands-on tap made of solvent resistant plastic
- Facilitates precise and clean decanting and filling booth protection products of all kinds as well as other liquids
- Made of non-toxic polyethylene (PE) – handy, antistatic, skin-tolerant
- Suitable for all canisters with an opening of 61mm Ø
- Flow opening ca. 9mm Ø
- Perfect decanting of E-D-BOOTH-PROTECTION products

Item#	Description	Packaging Unit
1613000	E-D-EASY-TAP for booth protection products main opening 61mm Ø, flow opening ca. 9mm Ø	1 box = 25 Pcs.

Booth Protection and Accessory Tools

Figure:
PRESSURE TANK SYSTEM "medium"

PRESSURE TANK SYSTEM for booth protection

- High-performance pressure tank made of steel with a manual stirring device, available in three sizes (10 liters, 20 liters, 40 liters), mounted on four wheels with a convenient handle bar for easy transport; max. pressure: 4.1 bar
- Especially intended for use with E-D-TACKY-COATING, E-D-STRIPPABLE-COATING "W", E-D-PEELABLE-COATING "T", E-D-PEELABLE-COATING "W" and E-D-OVEN-COATING as well as with other solvent or water-based liquids; easily attachable to the compressed air supply and the spray gun
- Equipped with a dual control regulator (air pressure, material pressure), safety valve, removable inner container made of aluminum as well as four wing screws for safe and air-tight sealing of the lid
- A hose pair of 7.5m in length is only included as a standard feature in the „small“ version (10 liters)
- For use in the industrial and crafts sectors, especially for spray painting

Item#	Description	Packaging Unit
1640010	PRESSURE TANK SYSTEM "small" 10 liters, incl. hose pair	1 carton = 1 piece
1640020	PRESSURE TANK SYSTEM "medium" 20 liters, without hose pair	1 carton = 1 piece
1640040	PRESSURE TANK SYSTEM "large" 40 liters, without hose pair	1 carton = 1 piece

AIR/MATERIAL HOSE for PRESSURE TANK SYSTEMS

- High-performance twin hose for air as well as material supply, made of solvent-resistant plastic (polyurethane); max. pressure: 8.5 bar
- Intended for use with PRESSURE TANK SYSTEM "small" (10 liters), "medium" (20 liters) and "large" (40 liters)
- Twin hose consists of a transparent material carrying hose (with 5/16" connection, inner Ø 8mm, material thickness 1.3mm) and a colored air hose (3/8" connection, inner Ø 6.5mm, material thickness 1.8mm), each 7.5m in length
- For use in the industrial and crafts sectors, especially for spray painting

Item#	Description	Packaging Unit
1640001	AIR/MATERIAL HOSE for PRESSURE TANK SYSTEMS, twin hose of 7.5m in length	1 carton = 1 piece

SUCTION FEED SPRAY GUN for booth protection

- High-performance and solid spray gun with a Ø 3.0mm nozzle and a connector for use with all common suction feed cups made of plastic or metal
- Needle, air valve and nozzle are made of stainless steel
- Especially intended for use with E-D-TACKY-COATING, E-D-STRIPPABLE-COATING "W", E-D-PEELABLE-COATING "T", E-D-PEELABLE-COATING "W" and E-D-OVEN-COATING as well as with other solvent or water-based liquids; easily attachable to the compressed air supply and pressure tank
- Perfect for use with the PRESSURE TANK SYSTEM for booth protection
- For use in the industrial and crafts sectors, especially for spray painting

Item#	Description	Packaging Unit
1641001	SUCTION FEED SPRAY GUN for booth protection, with Ø 3.0mm nozzle	1 carton = 1 piece

NOZZLE KIT 3.0mm for SUCTION FEED SPRAY GUN

- Nozzle Kit for SUCTION FEED SPRAY GUN
- Needle, air valve and nozzle are made of stainless steel
- Nozzle with Ø 3.0 mm

Item#	Description	Packaging Unit
1641030	NOZZLE KIT 3.0mm for SUCTION FEED SPRAY GUN, made of stainless steel	1 carton = 1 set

Paint Accessories
UTILITIES AND
CONSUMABLES

Utilities and Consumables

E-D-DISPOSABLE-FUNNEL

- Water and solvent-resistant one-time use paper funnel
- Designed for non-drip pouring and decanting of varnishes, paints and primers of all types as well as oils, stains and other liquids
- Height = 10.5cm, Ø top = 10cm, Ø bottom = 1.2cm
- Suitable for varnishing and painting, in paint mixing rooms and workshops, on the shop floor or in laboratories

Item#	Description	Packaging Unit
0102112	E-D-DISPOSABLE-FUNNEL plain, no imprint	1 bag = 250 pcs. 1 box = 4 bags = 1,000 pcs.

E-D-SPREADERS Plastic, yellow

- High-quality spreaders made of flexible and solvent-resistant plastic; available in 4 sizes (6.5cm x 11cm, 10cm x 7cm, 13cm x 8cm, 15cm x 9cm)
- Designed for applying and spreading filler and sealant precisely
- Made of non-toxic polyethylene (PE) – handy, antistatic, skin-tolerant
- For use in the industrial and crafts sectors, especially in car body and paint shops, in wood processing, in boat as well as yacht building and DIY work

Item#	Description	Packaging Unit
1360100	E-D-SPREADERS "Junior" 6.5cm x 11cm, yellow	1 box = 100 pcs.
1360101	E-D-SPREADERS "Standard" 10cm x 7cm, yellow	1 box = 100 pcs.
1360102	E-D-SPREADERS "Large" 13cm x 8cm, yellow	1 box = 100 pcs.
1360103	E-D-SPREADERS "Giant" 15cm x 9cm, yellow	1 box = 100 pcs.

E-D-RUBBER-SPREADER (Squeegee)

- Very elastic, highly flexible rubber spreader with high mechanical resistance; available in one standard size of 10cm x 7cm
- Designed for applying and spreading filler and sealant precisely
- Especially suitable for modeling work that involves delicate shapes and curves
- Creates very smooth surfaces; handy and skin-tolerant
- For use in the industrial and crafts sectors, especially in car body and paint shops, in wood processing, in boat as well as yacht building and DIY work

Item#	Description	Packaging Unit
1360108	E-D-RUBBER-SPREADER (Squeegee) 10cm x 7cm, white	1 box = 20 pcs. 1 carton = 20 boxes = 400 pcs.

E-D-METAL-SPREADER-SET (Japanese spatula)

- Spreader set made of 0.3mm tempered spring steel with plastic grip attached; available in 4 sizes (5cm x 9cm, 8cm x 12cm, 10cm x 12cm, 12cm x 12cm)
- Designed for applying and spreading filler and sealant precisely
- Solvent-resistant, flexible, handy
- For use in the industrial and crafts sectors, especially in house-painting, car body and paint shops, in wood processing, in boat as well as yacht building and DIY work

Item#	Description	Packaging Unit
1360109	E-D-METAL-SPREADER-SET (Japanese spatula) in 4 sizes: 5cm x 9cm, 8cm x 12cm, 10cm x 12cm, 12cm x 12cm	1 bag = 1 set = 4 pcs. 1 box = 100 bags = 400 pcs.

E-D-SANDING-BLOCK Cork, rounded

- Light, rectangular cork block; available in one standard size of 10.5cm x 6cm x 4cm
- Designed for hand sanding surfaces made of metal, wood or plastic
- Plain sanding surface with angular edges, rounded edges along the hand rest; suitable for wet and dry sanding
- For use in the industrial and crafts sectors, especially in house-painting, car body and paint shops, in wood processing, in boat as well as yacht building and DIY work

Item#	Description	Packaging Unit
0900301	E-D-SANDING-BLOCK Cork, rounded 10.5cm x 6cm x 4cm	1 bag = 10 pcs. 1 box = 50 bags = 500 pcs.

E-D-SANDING-BLOCK Cork, angular

- Light, rectangular cork block; available in one standard size of 10.5cm x 6cm x 2.5cm
- Designed for hand sanding surfaces made of metal, wood or plastic
- Plain sanding surface with angular edges; suitable for wet and dry sanding
- For use in the industrial and crafts sectors, especially in house-painting, car body and paint shops, in wood processing, in boat as well as yacht building and DIY work

Item#	Description	Packaging Unit
0900302	E-D-SANDING-BLOCK Cork, angular 10.5cm x 6cm x 2.5cm	1 bag = 10 pcs. 1 box = 50 bags = 500 pcs.

Utilities and Consumables

E-D-SANDING-BLOCK Rubber, black

- Convex rubber block with flexible slits and thorns along the narrow edges for clamping sanding paper; available in one standard size of 12cm x 6.5cm x approx. 3.2cm
- Especially designed for hand sanding plain surfaces made of metal, wood or plastic
- Plain sanding surface with rounded hand rest; suitable for wet and dry sanding
- For use in the industrial and crafts sectors, especially in house-painting, car body and paint shops, in wood processing, in boat as well as yacht building and DIY work

Item#	Description	Packaging Unit
0900306	E-D-SANDING-BLOCK Rubber 12cm x 6.5cm x approx. 3.2cm, black	1 box = 10 pcs. 1 carton = 6 boxes = 60 pcs.

E-D-SANDING-BLOCK Foam, yellow

- Convex foam block with Velcro® pads on three sides for attaching sanding disks with Ø 150mm; available in one standard size of 15cm x 8.5cm x approx. 4.6cm
- Designed for hand sanding surfaces made of metal, wood or plastic
- Plain sanding surface and rounded hand rest with indentations for 3 fingers; suitable for wet and dry sanding
- For use in the industrial and crafts sectors, especially in house-painting, car body and paint shops, in wood processing, in boat as well as yacht building and DIY work

Item#	Description	Packaging Unit
0900303	E-D-SANDING-BLOCK Foam 15cm x 8.5cm x approx. 4.6cm, yellow	1 box = 6 pcs. 1 carton = 10 boxes = 60 pcs.

E-D-SANDING-BLOCK-SET Foam, yellow, 6 pieces

- Set contains 1 convex foam block (master block) with Velcro® pads on three sides for attaching sanding disks with Ø 150mm; standard size of 15cm x 8.5cm x approx. 4.6cm
- Additionally, 5 differently shaped accessory blocks with Velcro® pads on the flat surface for attaching them to the master block
- Especially designed for hand sanding convex surfaces made of metal, wood or plastic
- Accessory blocks are adapted to various convex sanding surfaces; master block with rounded hand rest and indentations for 3 fingers; suitable for wet and dry sanding
- For use in the industrial and crafts sectors, especially in house-painting, car body and paint shops, in wood processing, in boat as well as yacht building and DIY work

Item#	Description	Packaging Unit
0900304	E-D-SANDING-BLOCK-SET Foam 6 pieces, yellow; comes in high-quality, closable plastic box	1 box = 1 set 1 carton = 16 boxes = 16 sets

E-D-HAND-SANDING-PAD flexible

- High-quality circular sanding pad made of soft and flexible foam material with an adjustable hand strap and Velcro® pads for attaching sanding disks with Ø 150mm
- Designed for hand sanding plain, convex or concave surfaces and edges made of metal, wood or plastic
- Very flat, flexible and handy; suitable for wet and dry sanding
- For use in the industrial and crafts sectors, especially in house-painting, car body and paint shops, in wood processing, in boat as well as yacht building and DIY work

Item#	Description	Packaging Unit
0900307	E-D-HAND-SANDING-PAD flexible Ø 149mm, flat and soft	1 box = 200 pcs.

E-D-PUMP-SPRAYER

- High-quality, solvent-resistant plastic bottle (1 liter) with a screwable pump and spraying device as well as an adjustable spray nozzle
- Designed for spraying liquids on surfaces of various kinds
- Especially for atomizing cleaning liquids prior to varnishing and painting
- Viton gaskets used in the sprayer are suitable for silicone remover and solvents
- For use in the industrial and crafts sectors as well as for DIY work

Item#	Description	Packaging Unit
1112011	E-D-PUMP-SPRAYER 1 liter, with Viton gaskets	1 box = 60 pcs.

E-D-SPRAY-SAMPLE-METAL-PLATES

- Primer-coated metal sheets available in 2 colors (white and gray) including a black separation line; available in one standard size of 10.5cm x 15cm
- Designed for applying spray-coat samples (water or solvent-based paints) and for the subsequent control of true color match and paint hiding power
- The sheet's back may be used to note down material and client information
- For use in the industrial and crafts sectors, especially for spray painting

Item#	Description	Packaging Unit
0912511	E-D-SPRAY-SAMPLE-METAL-PLATES 10.5cm x 15cm, white	1 box = 200 pcs. 1 carton = 5 boxes = 1,000 pcs.
0912512	E-D-SPRAY-SAMPLE-METAL-PLATES 10.5cm x 15cm, gray	1 box = 200 pcs. 1 carton = 5 boxes = 1,000 pcs.

Utilities and Consumables

E-D-RUBBER-DISK-SET

- High-quality rubber disks with plastic adapters for 8mm threads and 6mm pins; available in one standard size of 88mm x 15mm
- Designed for simple and residue-free removal of adhesive stripes, trim lines and decorative foils as well as stickers
- Suitable for varnishes and apints of all types; applicable on surfaces made of metal, glass and plastic
- Please note the maximum operating speed of 2,500 rpm to prevent damages to the surface
- For use in the industrial and crafts sectors, especially in car body and paint shops, in foil-decorating, in wood processing, in boat as well as yacht building and DIY work

Item#	Description	Packaging Unit
0910521	E-D-RUBBER-DISK-SET 88mm x 15mm with plastic adapter	1 bag = 1 set 1 box = 50 bags = 50 sets

E-D-SCRAPER-BLADE-HOLDER with replacement blades

- Handy scraper made of metal with slide-in blade
- Designed for removing cured adhesive, varnish and paint residue, especially on glass surfaces
- Replacement blades are single packed for safe storage and removal
- For use in the industrial and crafts sectors, especially in house-painting, car body and paint shops and DIY work

Item#	Description	Packaging Unit
1360110	E-D-SCRAPER-BLADE-HOLDER	1 bag = 1 set 1 box = 100 bags = 100 sets
1360111	Replacement blades for E-D-SCRAPER-BLADE-HOLDER single packed	1 box = 100 pcs. 1 carton = 8 boxes = 800 pcs.

E-D-TOUCH-UP-PAINT-TIPS Micro

- Thin, yellow sticks with easily bendable and lint-free soft fiber tips (fine)
- For spot-repair of small surface damages and other minor paint scratches
- Designed for applying paints of all types as well as adhesives, solvents or oils
- Stored in a small, transparent dispenser box
- For use in the industrial and crafts sectors, especially in house-painting, car body and paint shops and DIY work

Item#	Description	Packaging Unit
0900201	E-D-TOUCH-UP-PAINT-TIPS Micro fine, yellow	1 box = 100 pcs. 1 carton = 200 boxes = 20,000 pcs.

E-D-TOUCH-UP-PAINT-BRUSH-SET on cardboard

- 36 fine brushes (cat tongue shape) with coated handle and nickel plated ferrules; available in three sizes (each 12 x No. 4, No. 6, No. 8), assorted on a cardboard
- Especially designed for touching up and paint repairs
- Suitable for applying paints of all types as well as adhesives, solvents or oils
- For use in the industrial and crafts sectors, especially in house-painting, car body and paint shops, in wood processing, in boat as well as yacht building and DIY work

Item#	Description	Packaging Unit
0900203	E-D-TOUCH-UP-PAINT-BRUSH-SET 36 pieces, 12 brushes of each size, on cardboard with Euro punch	1 cardboard = 1 set = 3 x 12 pcs. 1 box = 125 cardboards = 125 sets

E-D-FLAT-BRUSH Nylon 30mm

- Trim brush with plastic handle, nickel plated ferrules and nylon bristles, 30mm wide
- Designed for processing brushing body filler and putty, sealant and underbody coating
- Excellent transfer of material and ideal spreading features; solvent-resistant
- For use in the industrial and crafts sectors, especially in car body and paint shops, in boat as well as yacht building and DIY work

Item#	Description	Packaging Unit
0900204	E-D-FLAT-BRUSH nylon bristles, 30mm wide	1 box = 70 pcs.

E-D-CLEANING-NEEDLE-SET and refill pack

- Small needles with very fine barbs (micro) for use with a pen holder
- Designed for removing lint, dust and small dirt particles from freshly painted and still wet surfaces and parts without damaging the surface
- Set contains 1 pen holder and 10 individually blistered needles; cleanly stored in a case until use
- For use in the industrial and crafts sectors, especially in house-painting, car body and paint shops, in wood processing, in boat as well as yacht building and DIY work

Item#	Description	Packaging Unit
0914097	E-D-CLEANING-NEEDLE-SET 1 case, 1 pen holder, 10 individually blistered needles	1 box = 100 sets
0914098	E-D-CLEANING-NEEDLE refill pack needles in blister pack	1 blister = 10 needles 1 bag = 10 blisters = 100 needles

Utilities and Consumables

E-D-SPRAY-GUN-CLEANING-KIT, 12 pieces

- Basic set consisting of 3 different circular brushes (natural bristle), 1 cleaning brush (natural bristle), 1 trim brush (natural bristle), 1 precision needle, 5 toothpicks and 1 can of silicone-free grease for spray gun needle and thread
- Thorough cleaning and maintenance of the paint-channel parts as well as the spray gun thread and body
- Suitable for paints of all types; water and solvent-resistant
- For use in the industrial and crafts sectors, especially after spray painting

Item#	Description	Packaging Unit
0900212	E-D-SPRAY-GUN-CLEANING-KIT, 12 pieces on blister card with Euro punch	1 box = 12 sets 1 carton = 6 boxes = 72 sets

E-D-SPRAY-GUN-CLEANING-KIT, 17 pieces

- Extended set consisting of 4 different circular brushes (3 nylon, 1 natural bristle), 1 cleaning brush (nylon bristle), 5 different, small precision circular brushes (nylon bristle), 1 fine brush (nylon bristle) as well as 6 different precision needles
- Thorough cleaning and maintenance of the paint-channel parts as well as the spray gun thread and body
- Suitable for paints of all types; water and solvent-resistant
- For use in the industrial and crafts sectors, especially after spray painting

Item#	Description	Packaging Unit
0900217	E-D-SPRAY-GUN-CLEANING-KIT, 17 pieces on blister card with Euro punch	1 box = 12 sets 1 carton = 6 boxes = 72 sets

E-D-SPRAY-GUN-CLEANING-KIT, 22 pieces

- All-in set consisting of 4 different circular brushes (3 nylon bristle, 1 brass wire), 1 cleaning brush (nylon bristle), 5 different, small precision circular brushes (nylon bristle), 3 different fine brushes (nylon bristle), 1 fine brush holder, 6 precision needles, 1 precision needle holder as well as 1 small flask of silicone-free oil for spray gun needle, spring, trigger and thread
- Thorough cleaning and maintenance of the paint-channel parts as well as the spray gun thread and body
- Suitable for paints of all types; water and solvent-resistant
- For use in the industrial and crafts sectors, especially after spray painting

Item#	Description	Packaging Unit
0900222	E-D-SPRAY-GUN-CLEANING-KIT, 22 pieces in a high-quality closable plastic box	1 box = 20 sets

E-D-CLAMP-SET, 10 pieces

- Easy to handle pliers made of durable plastic with stainless steel springs; available in three sizes (10cm, 15cm, 23cm)
- Designed for securing and fixing various parts made of metal, plastic, wood and glass
- Solid, impact-proof, strong and handy
- For use in the industrial and crafts sectors, especially in house-painting, car body and paint shops, in wood processing, in boat as well as yacht building and DIY work

Item#	Description	Packaging Unit
0999984	E-D-CLAMP-SET, 10 pieces in 3 sizes: 4 x 10cm, 4 x 15 cm, 2 x 23cm	1 box = 1 set 1 carton = 12 boxes = 12 sets

E-D-MIXING-NOZZLE, 2K 50cc

- Rounded mixing nozzles made of plastic, attachable to 50cc standard cartridges; available in one standard size of 8cm
- Designed for clean, accurate mixing and applying of 2K material
- Low pressure drag; optimal mixing ratios at short distance
- For use in the industrial and crafts sectors, especially in house-painting, car body and paint shops, in wood processing, in boat as well as yacht building and DIY work

Item#	Description	Packaging Unit
1131032	E-D-MISCHDÜSE, 2K 50cc 8cm, rounded, transparent	1 bag = 12 pcs. 1 box = 100 bags = 1,200 pcs.

E-D-SPRAY-GUN-HOLDER magnetic

- Wall fixing with slip-resistant plastic coating, attached to a magnetic plate; portable
- Designed for use with a wide range of gravity feed spray guns, clean and easy to use
- For use in the industrial and crafts sectors, in spray booths and paint mixing rooms

Item#	Description	Packaging Unit
0900210	E-D-SPRAY-GUN-HOLDER magnetic	1 box = 6 pcs. 1 carton = 6 boxes = 36 pcs.

TOOL CART

- Handy and solid workshop cart of varnished steel plate, mounted on two regular and two locking caster wheels
- Designed for storage of various tools and equipment such as sanders and polishing machines, masking tape, buffing materials, respirators etc.
- Fitted with a wide push handle, two lockable ball bearing slide drawers, two rubber coated sliding worktops with a storage compartment underneath as well as an open storage tray on the bottom
- Dimensions: 70cm x 37cm x 83cm (W x D x H), maximum load: 150kg per item
- For use in the industrial and crafts sectors, especially in work and paint shops

Item#	Description	Packaging Unit
0900100	TOOL CART dismantled in a solid carton	1 carton = 1 piece

DYNABRADE DYNORBITAL SUPREME® ORBITAL SANDER, pneumatic

- High-performance and solid orbital sander with 12,000 rpm and air consumption of 510 l/min, ergonomically shaped housing, low noise level and smooth running; equipped with the Dynabrade Premium Urethan disk wheel
- Designed for demanding and intensive sanding jobs, adaptable with various vacuum systems
- Available with three different disk Ø (89mm = 3.5", 127mm = 5", 152mm = 6") and optionally with three different orbital strokes (2.5mm, 5mm, 10mm)
- Optimized bearing seals protect against sanding residue and thus reduce the bearing temperature for a prolonged operational life cycle
- For use in the industrial and crafts sectors

We bring together what belongs together: service, quality and reliability.

At DREFI we present the brands DREHKOPF and FIDI as well as our new brand NORTSHIELD.

We pool resources and competencies, focused on our customers. All in order to continue offering products of highest standards.

NORTSHIELD®
A DREFI BRAND

High-grade and adequate personal protective equipment for various working environments and – compliant to all relevant standards, risk-reducing, safe.

DREHKOPF®
A DREFI BRAND

High-quality paint accessory products for various fields of application in all industrial and crafts sectors – performance-minded, straightforward, effective and user-friendly.

FIDI®
A DREFI BRAND

Machinery and equipment for highest demands in all areas of solvent recycling, waste water treatment, processing process water as well as cleaning spray guns and tools – professional, cost-efficient, sustainable.
